Launch heavy attacks in order to destroy the enemy; material resources; capture high ranking enemy cadre and simultaneously attack American installations. Besiege and isolate American strong points; limit the US soldiers! movements and capture them to demand compensation for war damage.

Properly manage the timely take over of GVN administration and organize a government.

Develop political and military strength.

Stabilize the population's standard of living and establish ground and air defense.

Ideology.

- Heighten the determination to fight the enemy and make sacrifices for the main cause.
 - Be extremely careful in fierce attacks.
 - Make great efforts to attack the enemy.
 - Heighten the sense of discipline.

Analysis of the enemy situation.

[Page 2 of original text]

- The morale of the American and Puppet troops is poor. One half of the enemy troop strength \(\sum_{200} \) 000 \(\sum_{9} \) were annihilated in 1967.
- Anti-war sentiments; demands for repatriation and disobedience of commanders' orders occured in some enemy units at company and battalion levels.
- The enemy soldiers were afraid of our main force. Therefore they left behind their wounded and dead companions—in—arms and chose to surrender. The satellite troops maintain a neutral attitude toward us.
- The combat tactics of the Americans required large expenditures and resulted in nothing but defeat.
 - 3- Pacification program.

CDEC Doc Log No. 01-2286-68

The enemy pacification program completely failed in Binh Binh and Phu Yen. Discords occured in the enemy ranks after the elections.

In short, the enemy is suffering heavy defeats and has been driven to the defensive position.

In the dry season of 1967-68, the enemy will not have the capability that they had before. It is possible that they will launch operations at two old objectives.

4- Efforts have been made by officials of the American State Department to seek contack with us, but our indifference isolates them.

New salient points.

- The defeats suffered by the enemy in the battle of road # 9 and in the delta areas of Region 5, N Bo and TN / possibly Nam Bo and the Western Highlands / have not been reported to the Political Staff Section.
- Concerning the enemy pacification program; the Political Staff Section guessed that the enemy would resort to the double encirclement plan; but instead, the enemy had to defend his strong points in the cities.
 - At present, the enemy is in a strategically defensive position.

[Page 3 of original text]

Motivation.

- We have not yet made the people clearly understand the Revolution's situation.
- The ideologies of reliance and "wait and see" have not yet been solved.
 - Indignation of the enemy has not yet been motivated.
- The methods of motivating each specific group [minorities] have not been carried out.

Missions must be carried out.

- a- Motivate people to answer the appeal of the / Liberation] Front concerning the Winter-Spring [Campaign].
- b- Increase the people's resentment of the enemy. Efforts must be made to carry out the following:
 - 1- Protest the [high] cost of living. Counter the enemy conscription.
